

Review Form 1.7

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_110668
Title of the Manuscript:	THE PROS AND CONS OF THE IMPACT OF ARTIFICIAL INTELLIGENCE IN ANESTHESIA: REMOTE PRE-OPERATIVE ASSESSMENT AND PERIOPERATIVE CARE
Type of the Article	

[Review Form 1.7](#)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	Yes Yes Yes Needs revision. Section and subsection numbers are not given. Needs revision. More discussion is needed on practical applications. Yes. 1. The introduction needs revision. Merge the related paragraphs in Introduction and limit total number of paragraphs to 4 (Maximum). The way the authors have written the Introduction does not look suitable. A systematic flow must be maintained in Introduction. 2. Authors should use [] instead of () for citation. () are basically used for equations. 3. Authors have written both AI & ML terms throughout the manuscript, which technique is used in this work? Don't use both the terms at a time. 4. Literature survey is properly done. Another section may be added for Literature Survey. 5. The methods that are adapted till date, and the possible methods must be discussed properly to define the PROS and CONS. 6. Which factors are important to provide the Anesthesia and which model works better in this scenario must be added? 7. Related works, in terms of success rate, accuracy etc must be presented in a Tabular form for easy analysis by the readers. By analysing the present scenario, authors may draw the PROS and CONS.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Authors are advised to be specific while writing medical issues related research papers with proper documentations.	

Review Form 1.7
