

Review Form 1.7

Journal Name:	Asian Journal of Case Reports in Surgery
Manuscript Number:	Ms_AJCRS_111259
Title of the Manuscript:	Tuberculosis of the base of the tongue: a rare case report
Type of the Article	Case study

PART 1: Review Comments

Authors have reported a case of incidentally detected tuberculosis of the base of the tongue. The presentation is optimum. Findings and wording could have been better.	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes. Yes. Yes. Yes. Yes.	ok
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	No.	
Optional/General comments	The report is scientifically relevant. However, I think a few points need to be clarified. 1. The culture of culture or gene expert are not mentioned. 2. The anti tubercular protocol described seems to be older one. Authors should mention if It's as per any protocol. 3. Authors have mentioned that ATT was started with good prognosis. They should mention present status of patient. If the patient is cured, is at what stage of treatment And if there is any recurrence. 4. Need to check grammatical errors.	1- Gene expert has not been made , the diagnosis was based on the anatomopathological examination 2- The protocol is always the same it has not been changed 3- Actually the patient is cured
