

Editor's Comment:

The title of the paper is not appropriate. A suggestion is " Integration of blockchain technology into autonomous systems to ensure data integrity and trustworthiness".

There are grammatical mistakes that need to be corrected. The authors are requested to look into the paper and fine it to include some more points on data integrity and trustworthiness. The paper can be published after these modifications.

Editor's Details:

Dr. G. Sudheer
Professor, GVP College of Engineering for Women, Madhurawada, India.
