Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 1. It is important but hte prevalence provided is varied anddoesn’t apply to a specific country as HPV and HIV prevalence vary between countries, it can be a general idea on an important issue that needs more details 2. yes, suitable title 3. yes, the outcome is straight forward which is a calculated prevalence so the abstract is clear 4. yes. 5. to some degree if we want a general look at the issue here. 6. sufficient	 1. Thank you for all comments 2. We altered the abstract, introduction and the initial part of the discussion 3. We improved the English of the paper 4. We inserted the reference numbers of the table 2
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	 language needs revision	
Optional/General comments	 some revisions needed as the excluded studies might affect the prevalence calculated which might impact the whole publication
