Manuscript Number:	Ms_AJCRS_117083
Title of the Manuscript:	THE CLINICO-PATHOLOGICAL ANALYSIS OF BREAST CANCER IN MALES: A CASE SERIES
Type of the Article	Clinical Practice Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>Unfortunately, as it is presented here, this manuscript lacks novelty or an up-dated approach to discussing male brast cancer.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes, but needs major improvement</p> <p>Insufficient references. They need to be updated to the latest literature and the manuscript needs to discuss parallel ideas which are currently under investigation in the medical literature in regards to male breast cancer. The article is poorly written, lacks novelty and is in dire need for updated literature.</p>	Revised
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<p>The current work needs a major English grammar and writing evaluation and re-writing. It is simply written. Also, major attention the spelling mistakes – attention to subsection names, as there are letters missing even here....</p>	Checked
Optional/General comments	<p>This manuscript needs major improvement if the authors desire to be even taken into account for publication. I will need to review this manuscript after major improvements have been made.</p> <p>Suggestions – It would be advisable for the authors to include a discussion part regarding interleukins and breast cancer:</p> <ol style="list-style-type: none"> 1.
