

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_117111
Title of the Manuscript:	Assessment of different crop regulation methods on yield and quality of guava .
Type of the Article	Original research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	1) The manuscript titled "Assessment of different crop regulation methods on yield and quality of guava" holds significance for the scientific community, particularly for researchers and practitioners involved in horticulture and agricultural sciences. 2) The title "Assessment of different crop regulation methods on yield and quality of guava" effectively conveys the scope and focus of the study. However, to make it more engaging and concise, an alternative title could be "Optimizing Guava Crop Yield and Quality Through Various Regulation Methods". This alternative title maintains the essence of the original while presenting a more succinct and compelling option. 3) Yes 4) Yes 5) Yes 6) Some references cited in the text and in the reference section are not in the proper format, and there are discrepancies where references mentioned in the text are missing from the reference section. It's crucial to ensure consistency and accuracy in citing references.	Yes Revised title Optimizing Guava Crop Yield and Quality Through Various Regulation Methods Yes Yes Yes Additional references are added.
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	1) The scientific name of guava should be italicized, and spelling of the family of guava should be corrected throughout the manuscript for clarity and adherence to scientific writing conventions. 2) Additionally, there are spelling errors throughout the manuscript, such as "diarrhoea" in the introduction, which should be corrected for accuracy.	Yes
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No.
