EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
1. As it is a survey study of the disease therefore the map should be added indicating the occurrence of the disease in colored form. This map will help the reader to grasp the results in a single glance. Statistical analysis is not required as it is a survey. The graph added in the paper needs formatting and better presentation. I also found a few grammatical mistakes and the paper also requires formatting.	This is preliminary study and now preparing the map for our next research Ok Corrected
