

## Review Form 1.7

Journal Name:	Journal of Complementary and Alternative Medical Research
Manuscript Number:	Ms_JOCAMR_113075
Title of the Manuscript:	Knowledge, Attitudes and Practices On Risk Of seizures In Children Exposed To Camphor And Eucalyptus Essential Oils.
Type of the Article	Cross sectional study

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)  3. <b>Is the abstract of the article comprehensive?</b>  4. <b>Are subsections and structure of the manuscript appropriate?</b>  5. <b>Do you think the manuscript is scientifically correct?</b>  6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<b>Yes, but the use of Camphor and EO are harmful in toddler age (1-3 years) mainly at ingestion.</b> As camphor is traditionally practiced in many countries (banned in America) as fumigation to disinfect the air in any epidemic air born/droplet transmitted viral respiratory diseases, has been used excessively in Covid Pendemics. So ingestion of any chemical is dangerous than inhalation of fumes only <b>and its age specific ,duration of exposure specific.</b>  <b><u>No, Knowledge ,Attitudes and Practice on exposure to camphor &amp; Eucalyptus Essential Oils and risk of Seizure disorder in children-Across sectional study.</u></b>  <b>The inference is only awareness about its misuse,There is no direct relation in seizure episode and Camphor contact as shown in this study.</b>  Yes	
<b>Minor</b> REVISION comments  1. <b>Is language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	In this study it cannot be concluded that the seizure precipitated by camphor /EO fumes as the MRI report /cause of seizure is not mentioned here.So clinical basis of seizure is important. This study only shows the awareness regarding practice of camphor & EO.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
