

Editor's Comment:

After a thorough review of both the original and revised versions, as well as the reviewers' contributions, it is evident that their feedback was extremely useful and significantly enriched the manuscript. The authors effectively addressed the reviewers' suggestions, resulting in a more coherent, comprehensive, and publishable manuscript for the journal.

Apart from small issues with formatting, referencing and linguistic precision, the manuscript meets all technical requirements. It addresses an important topic and has the potential to make a remarkable addition to the current literature.

I recommend the acceptance of the manuscript.
