	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Reviewer comments</p> <p>*Please put selected main locations to the key points.(Eg: Nubia, Atbara,Dinder)</p> <p>*According to my point of view,it is good if can display highly spreaded species abundance in a map.(As highly spreaded species are small qty, easy to do it).it may usfull to find out highly spreaded species in Sudan with the selected locations.</p> <p>*It is clear if replace pie chart by bar chart.</p> <p>Then, data clarification is very smooth.</p> <p>When look at the pie chart, it seems say wrong definition with the percentages.</p> <p>The author idea was, mentioning the found species out of total earlier recorded species taking it as 100 in different sites. But, pie chart wouldn't be suitable for it.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p><b>Optional/General</b> comments</p>
