<div>MinorREVISIONcomments</div> <div>Isthelanguage/Englishqualityofthearticlesuitable forscholarlycommunications?</div>	<div>The language quality of the article is generally suitable for scholarly communication; however, some sections may benefit from minor editing to improve clarity and flow.</div>	<div>The Manuscript has been purged of grammatical errors right from the abstract to introduction down to the conclusion.</div> <div>Thank you so much for your observation</div>
<div>Optional/Generalcomments</div>	<div>Overall, this manuscript addresses an important socioeconomic issue through a unique modeling approach, making it a valuable contribution to the field. The compartmental model is well-constructed, though the authors could consider clarifying certain assumptions and refining explanations of key terms for broader accessibility. Additionally, including a discussion on potential limitations and future research directions would strengthen the manuscript's impact and encourage further exploration in this area.</div>	<div>Thank you so much for your observation</div>
