Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Impact of key insect pests on cowpea and their correlation with weather parameters is intricate. Variations in temperature, humidity, rainfall, and other environmental factors can either promote or reduce pest activity, significantly affecting the growth and yield of cowpea crops. To reduce the impact of major insect pests, effective pest management approaches need to consider these weather-related factors.	Thank you for your valuable comment
