

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_126036
Title of the Manuscript:	Studies on effect of planting dates on seed quality of onion (<i>Allium cepa</i> L.) in North eastern dry zone of Karnataka
Type of the Article	Original research article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Yes, The manuscript is very important for scientific community as clearly From the study it can be concluded that the seed harvested from early planting sown crop had good seed quality compared to delay planting.	It is very important from the point of present scenario. Climate change poses several challenges for the continued production of high quality seed. New planting windows are required .
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable.	No comments
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	No comments
Are subsections and structure of the manuscript appropriate?	Yes, subsections and structure of the manuscript are appropriate.	Included the additional information
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		Seed is the basic and most vital input of agriculture, and the seed industry must be able to continue to deliver the quantities of quality seed required for this purpose. Climate change poses several challenges for the continued production of high quality seed. Hence, study is important from the point of scientific onion seed production.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No, Authors would have added recent references as example years 2022, 2023 and 2024.	New references are included
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	No comments
<u>Optional/General</u> comments		No comments

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No
