Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is very important topic and hot issue of Pakistan because here environmental sample is positive of polio virus. So, it is perfect time to conduct research on this topic and unfold the reasons behind the problem. I really like this topic.	
Is the title of the article suitable? (If not please suggest an alternative title)	The Topic is OK, My suggestion in the next column Factors influencing parents' decisions regarding childhood immunization in Lahore, Pakistan,	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	We can improve the Abstract Please Add in the Abstract The vaccine is intended to protect about 2 million and 3 million survivors per year. Pakistan is one of two states where the prevalence of poliovirus persists.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I think this manuscript is scientifically robust and technically sound because sample size is good in numbers i.e 353. Good way to analyse and apply tests on SPSS. Interpretation style is also satisfactory. Hidden issues are highlighted in this study. We can also encourage the LHWs role in the recommendation part for the parent's adopt the good practices regarding their child's vaccination.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :-	References are Good but seems insufficient Again and again reference no.1. 2, 3 Or 3, 2, 1 We can add more
