A minimum of 3-4 sentences may be required for this part.	1. The paper will be of great interest to the scientific community. 2. I like the paper because the methodology employed in the analysis is robust, and the results and conclusion are also useful. It is a well-arranged and structured paper. The results are very well spelt out for readers of the paper to compare with the discussion and conclusion.	Thank you very much for your positive feedback and constructive comments on my paper. I am glad that you find this research of great interest to the scientific community and appreciate the robustness of the methodology employed in the analysis, as well as the usefulness of the results and conclusions. Your recognition of the paper's structure and the clarity of the results is very encouraging to me. I will continue to strive to ensure that the research provides valuable information for readers.
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the manuscript is very suitable for the scientific world.	Thank you very much for your positive feedback and constructive comments on my paper.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive. However, I will suggest that the author include quantitative values of the results/findings in the abstract.	Thank you for your insightful suggestion. I have now incorporated quantitative values of the findings into the abstract to provide clearer evidence of the model's performance. Please let me know if there's anything further I can improve!
Are subsections and structure of the manuscript appropriate?	Yes	Thank you very much for your positive feedback and constructive comments on my paper.
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The work's results and findings are correlated. The methodology employed is very appropriate, and it gave useful results for the forecast. However, the reviewed literature and past work seem inadequate. Therefore, I suggest that more related papers or journal papers be reviewed and added to the work.	Thank you for your valuable suggestions. Based on your feedback, I have added more relevant papers and journal articles in the literature review section to supplement and enhance the existing research background. This adjustment aims to ensure a more comprehensive theoretical foundation for this study, further supporting the research methodology and findings. I appreciate your guidance.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	References are not sufficient for this work. More related papers should be reviewed and added to this work.	Thank you for the valuable feedback. I have revised the literature review section by incorporating additional relevant papers and journal articles to strengthen the background and support for the study. I hope this adjustment provides a more comprehensive foundation for the research
