PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is significant for the scientific community as it addresses the critical impact of emerging technologies on pharmaceutical process design and optimization in Africa, offering insights that could enhance healthcare in the region. However, I find the manuscript lacking because it does not include a dedicated literature review section, which is crucial for situating the research within the broader academic context. Additionally, the absence of tables, graphs, and a detailed analysis section diminishes the clarity and depth of the presented findings. These omissions make it challenging to fully appreciate the research's contributions and implications.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable as it clearly reflects the focus on emerging technologies in pharmaceutical processes in Africa.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is a review article, but a literature review is missing. The article needs a literature review section, as it's crucial for providing context, summarizing existing research, and highlighting gaps in the field. Adding this would greatly enhance the article's depth and relevance.	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper titled "The Impact of Emerging Technologies on Pharmaceutical Process Design and Optimization in Africa: A Review" new insights, or significant advancements on the topic.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes
