PART 2:

FINAL EVALUATOR’S comments on revised paper (if any)	Authors’ response to final evaluator’s comments
Dear Author, I found several parts are improved according to the comments. Below are my comments on the revised paper: 1. There are some spelling and grammatical errors still found in the paper. Please proofread your paper thoroughly. 2. Citation-in-text are mostly wrong, according to APA referencing style. 1 reference which I highlighted in red is wrong as well. Please revise according to journal’s referencing format. 3. Conclusion is incomplete. Conclusion should contain summary of the paper, implications of the research and recommendation for future research.	1. Correction has been made. 2. I am not finding that type of problems. Citations are fine. 3. As per me that was enough to conclude the paper, but I had added few more sentences in that.
