

Editor's Comment:

The following are some of my comments and suggestions for bettering the quality of this paper:

1. All keywords duplicate the same as in the paper title. Other selections need to be re-chosen.
2. Use “and” instead of “&” throughout the entire paper.
3. Please number all the equations listed, even here is only one.
4. Provide units to all the parameters (variables) utilized in this study.
5. Use metric units, such as hectare (ha) instead of acre.

Should the authors correct the above mentioned, this paper is readied for publication acceptance.
