The said manuscript is readied for publication acceptance. However, the following suggestions are highly recommended to upgrade this paper in the final stage:

1. Sub-headings are not necessary in the abstract.
2. Selections of keyword are missing.
3. Please number ALL equations listed in the text.
4. Please use “and” instead of “&” throughout the entire text, including the reference list.
5. A thorough proof-check and English-check is also required.
