

Editor's Comment:

The paper can be published after minor revisions:

- the author mentioned in the response to the reviewers that **he prefer changing the title to “Empirical Analysis of Monetary Policy Transmission Instruments and Non-oil Real Sector Private Investment in Nigeria”**, but in the revised version he did not do this change.
- there are editing errors: spaces or missing spaces, different font dimension (see page 19, 23-24 etc), text outside the boundaries (see page 22), references etc.
- I'd like to transmit to the author the fact that after years that I have asked (as editor) to the journal to request to the authors to highlight or to use "track changes" option in the revised version, I am not agree with his reply " **I do not agree with all the highlights because this is a original scientific research** ". For a reviewer/editor it is more easier to see the changes compared with the original version.
