

**Editor's Comment:**

The feedback from the author is not included in the manuscript.

Always, the author should include an explanation of each figure or table, before the figure and the table.

In manuscript say: that ethical approval is not applicable.

The methods section is very poor.

Consent was verbal. It is desirable to obtain writing consent.

**Editor's Details:**

Dr. Nicolas Padilla-Raygoza

School of Medicine, University of Celaya, Mexico.
