

**Editor's Comment:**

I have read carefully all the files provided by you regarding the manuscript "**STREET GAMES IN FILIPINO SOCIETY IN SELECTED RURAL TOWNS OF ILOCOS NORTE**".

It looks like the authors have complied with most of the reviewers' comments and suggestions where appropriate. What I noticed is that the list of references is not formatted according to the rules of the journal. Capitalization is used in places, especially in the conclusion, where it does not seem necessary.

Based on the reviews and feedback from the authors, as well as the revised text, I believe that the manuscript can be published once the bibliography has been brought to the form the journal requires.

As this is my first decision as an academic editor ever, please let me know if this is what I am supposed to do and write.
