

Editor's Comment:

Thank you very much for sending the revised manuscript for taking a final decision. However, while reading the manuscript, I found that the authors have done good jobs during revisions as well as improved the manuscript based on the comments/suggestions raised by the reviewers. Nevertheless, there are still some places where 2-3 words have joined together, which are required to be corrected as well as the overall English language should need to be improved. The abstract must be confined within one paragraph (not in two paragraphs) and the title should need to be a more appropriate one as "Therapeutics Effects and Health Benefits of the Caucasus Koumiss: A review" In addition, the authors are suggested to format the whole manuscript (including the references) according to the the Journal (ARRB). Hope, you will agree with my decision that the paper could be accepted for publication in ARRB pending the above-mentioned minor corrections/revisions.
