PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper needs a complete language revision. The text is a little bit verbose which stay difficult for readers understand it. Suggestions are presented directly in draft manuscript. Authors need to add the number of Ethics Committee that approved this research with human beings.	Thank you for the observations and all corrections have been implemented
Minor REVISION comments	Caption of Figure 1 must be added in images from A to H. Consequently, the next figures must have their numbers adjusted. Mathematical expressions shall be written using MS-Equation editor. In tables, sort in ascending order according to: Low, moderate high and Very High.	
Optional/General comments	This paper is an important contribution which denounces problems due to air pollution in Nigeria. This problem is mainly due to illegal refining sites, since many technological solutions are already available to minimize environmental impact in companies that operate legally. The paper is relevant, but it is necessary a major revision before to publish.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
