PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The objectives of the article should be stated out clearly</p> <p>The methodology for data collection was not explicit enough. How many articles did the author use? Where did he collect the articles from? What were the criteria used for selection of articles? How were the articles processes to obtain available data?</p> <p>On what bases was the two methods of parboiling compared?</p> <p>Was a statistical test performed inorder to compare the amount of Afloxins in raw and parboiled rice?</p> <p>The conclusions doesn't tie with the objectives</p>	Agreed. No statistical test was conducted and the rest is corrected
Minor REVISION comments	The draft should be revised by a renown English speaker to avoid the little grammatical errors	Agreed and revised
Optional/General comments	I was expecting some recommendations at the end of this work and why not perspectives too	Agreed and included

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
