

## Review Form 1.6

Journal Name:	<a href="#">Asian Food Science Journal</a>
Manuscript Number:	Ms_AFSJ_85849
Title of the Manuscript:	PRODUCTION AND QUALITY EVALUATION OF BISCUITS FROM MANGO SEED KERNEL-ACHA FLOUR BLEND
Type of the Article	Research article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalafsj.com/index.php/AFSJ/editorial-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. All scientific name will be italic</li><li>2. In introduction, avoid unnecessary separated para. Try to combine.</li><li>3. The last sentence of introduction will not be separate para. Write this sentence just after previous sentence.</li><li>4. Check the equation of %<i>Total Nitrogen</i> determination. Use multiple (x) sign.</li><li>5. Why 10% substitution of mango seed kernel flour, the mango seed kernel acha flour blend biscuits were the most acceptable than the other treated samples?</li></ol>	<ol style="list-style-type: none"><li>1. Thank you for your comment, this is a very good observation, the issue has been addressed in the modified manuscript.</li><li>2 &amp; 3. Thank you for your comment, the issue with respect to the introduction has been addressed in the revised manuscript.</li><li>4. The %Total Nitrogen formula was corrected in the revised manuscripts.</li><li>5. The mango seed kernel acha flour blend biscuits were most acceptable and preferred at 10% substitution of the mango seed kernel flour.</li></ol>
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1) In abstract, write mango seed kernel (<i>Magnifera indica</i>)</li><li>2) In materials and methods, mention the room temperature clearly.</li><li>3) In result and discussion, The 5 percent, 10 percent, 15 percent, 20 percent, 25 percent, and 50 percent will be The 5, 10, 15, 20, 25 and 50% .....Not necessary to mention percent in every case</li><li>4) In 3.2 section, include unit after each value</li><li>5) In 3.4, check the every unit like cm<sup>3</sup>.</li><li>6) Abbreviate CHO when used for first time in the text</li></ol>	Thank you for your comment, this is a very good observation, the issue has been addressed in the revised manuscript.
<b>Optional/General</b> comments	This is a nice piece of research work related to food science and manuscript is well written and easily understandable. Follow the reference style in the text and in reference section based on journal requirement.	Thank you for your recommendation, the author(s) addressed the issue in the revised manuscript and the authors guidelines was strictly adhered to.

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No, there are no ethical issues in this article.
