PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author should produce a sample under controlled conditions to monitor the point of contamination since it was observed that both the raw and cooked sample is contaminated.	The suggestion is appreciated, perhaps the authors will incorporate that objective in the next study. For this manuscript however, the process surpasses the 7 days required to re-submit. Thank you.
