### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	I thank the Editor for the invitation and the authors for the possibility of reviewing their research. The purpose of the research is clear in the introduction. The materials and methods are made in a clear way, allowing their replication. However, reviewers specialized in the field should comment on the methods applied. The statistical analysis is well done using Tuckey's test of multiple comparisons, and the results are in agreement with the research objectives, terms in which the structure of the work is clear and the discussion and conclusion allow to see the added value of the current research and its importance to the field under analysis.	Thank you for the review comments.
<b>Optional/General</b> comments
