EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. The sample size is limited but could be accepted somehow.</p> <p>2. The statistical analysis is very poor as the authors use only frequencies to describe and analyze their purposes.</p> <p>3. The analysis of the results is very brief also.</p> <p>4. There is no Discussion section to compare the study results with similar studies.</p> <p>5. References are poor and the bibliography needs enrichment.</p> <p>Generally, the manuscript needs enrichment and reformulation.</p>	<p>Since it is a statements we could do only the frequency analysis. Independent variable were not taken for this study. Hence, we could not able to do further analysis.</p>
