PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The work is a statistical survey on the attitude and opinions of farmers in a certain area of India on a system of crop diversifications. The work is formally correct, written in a very clear and precise language. and very well organized. The problem is well described, the methodology is correct and well described. The tables illustrating the results are numerous and very clear. Bibliographic references are sufficient. However, in the opinion of the reviewer, there is no analysis of the relationships between farmers' opinions regarding the crops rotationand certain characteristics such as age or level of education.	ok
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
