PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Justify very well why it was expected that farmers adopted mushroom cultivation in a context where «awareness about consumption and health benefits of mushrooms available for cultivation is limited, their demand is also less». The objective defined is not realistic. Precise the research question, the hypothesis of research, and the methods of sampling, data collection and analysis.	Noted and revised
Minor REVISION comments	Separate very well «Material and methods» of «results and discussion»	Revised
Optional/General comments	Reformulate the topic. It can be : «Impact of KVK, ICAR-IISR, Lucknow training programme on mushroom cultivation adoption by farmers in northern Gangetic plains of India».	Revised

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
