Title of the Manuscript:	Benign atrophic papulosis as a paraneoplastic clinical marker
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajarr.com/index.php/AJARR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	It is desirable that the author describe in more detail the special status of skin lesions, indicating in the text the numbers of the figures.	Thank you very much for this kind remark. The appropriate setting of the Figures has been arranged.
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	Degos disease is a rare, chronic, occlusive vasculopathic disease. There is no specific laboratory test that can help diagnose this disease.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
