

SDI Review Form 1.6

| | |
|--------------------------|---|
| Journal Name: | Asian Journal of Advanced Research and Reports |
| Manuscript Number: | Ms_AJARR_85977 |
| Title of the Manuscript: | Barleria acanthoides Vahl. mediated green synthesis of silver nanoparticle and their antibacterial activity |
| Type of the Article | |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | <p>Hope you are doing well, I reviewed manuscript carefully and in my view the results of this manuscript is valuable. This manuscript is acceptable after minor revision. Comment No. 1: This paper should be edited grammatically. Comment No. 2: It should be better that manuscript has a nomenclature. Comment No. Comment No. 3: Some important related papers must be included: - Heat transfer and fluid flow of blood with nanoparticles through porous vessels in a magnetic field: A quasi-one-dimensional analytical approach, Mathematical Biosciences, Vol 283, pp. 38-47, 2017. - Analytical study of micropolar fluid flow and heat transfer in a channel with permeable walls, Journal of Molecular Liquids, 204, 198–204, 2015. - Scrutiny of underdeveloped nanofluid MHD flow and heat conduction in a channel with porous walls, International journal of Case Studies in Thermal Engineering, 4,2014. - Study of heat transfer and flow of nanofluid in permeable channel in the presence of magnetic field, Propulsion and Power Research, Volume 4, Issue 1, March 2015, Pages 5062. - Study of heat transfer in nanofluid MHD flow in a channel with Permeable walls, begellhouse, Heat Transfer Research, 48(3), 221–238, 2017. - Nanofluid thin film flow and heat transfer over an unsteady stretching elastic sheet by LSM, Journal of mechanical science and technology 32 (1), 177-183, 2018. The paper is acceptable, but only after the above comments are suitably addressed. I shall proofread the final version.</p> | <p>The manuscript has been revised in the light of the reviewer's comments. All the corrections/modifications have been highlighted in the revised manuscript.</p> |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
