PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This is a review article describing the conceptual framework of the relationships between social media and the decision-making process for plastic surgery consumers in Jordan. Some major revisions were suggested.</p> <ol style="list-style-type: none">1. What are the differences between the consumers in Jordon and consumers from other regions of the world? Is there any discrepancy regarding the proposed conceptual framework?2. The method of the literature review process should be clearly described. Which database or which resources of the reviewed literature were collected from?3. Which part of the three components of the framework plays the most important role in plastic surgery consumers? Is there any difference between general consumers and plastic surgery consumers?	<p>1- Differences in consumers can identified after conducting the research and compare the results.</p> <p>2- literature review process should clearly described: The research used the systematic literature review to provide a conceptual framework to measure the relationship between social media and the decision-making process of plastic surgery consumers by tracking the plastic surgery articles generally and in Jordan particularly.</p> <p>3- Results can be shown after conducting the study.</p>
Minor REVISION comments		
Optional/General comments
