

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Advanced Research and Reports</a>
Manuscript Number:	Ms_AJARR_89870
Title of the Manuscript:	Application of a Laboratory Biotower Septic Tank System for Effluent Treatment - A Laboratory Study
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajarr.com/index.php/AJARR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. A work is explained well through appropriate and streamlined script.</li><li>2. The significance of monitoring "TS" need to be addressed.</li><li>3. In case biotowers few more important parameters like C/N, N, SS, VFA were expected to be monitored.</li><li>4. Only results are discusses, rather it is expected to discuss reason behind such parametric changes.</li><li>5. As per title, whether the focus is on "Application" or else?</li><li>6. Whether HRT is considering excluding seeding period – need to clarified.</li></ol>	Thank you Short explanation added in Laboratory Testing Procedure section This was not part of the study, further research under Conclusion mentioned this. Reasoning is present in subsections of Result section.  Title changed to Application and Testing of.... HRT of 15 days is mentioned in the start up section 2.1.5.
<b>Minor</b> REVISION comments	At some places citations are not mentioned as per guidelines.	Citation have been used as needed.
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
