### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The research was conducted in a consistent and logical manner. The information was obtained from the seeds of <i>Citrullus lanatus</i> and good results were found in the trace mineral, secondary metabolites and hypoglycemic activity, achieving the objectives set and proposing this source with bioactive metabolites for nutraceutical and medicinal purposes.	Revision amended
<b><u>Minor</u></b> REVISION comments	The hypoglycemiant activity should be described in a simpler way and therefore the results in the tables. When indicating a quantity with its respective units, put a blank space between the numerical quantity and the unit: Example: 50 g Follow the International System of Measurements SI. Check the format of the references in the bibliography Recommendations are included in the original document .	Noted
<b><u>Optional/General</u></b> comments
