

Review Form 1.6

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_87529
Title of the Manuscript:	LETHAL DOSE EXAMINATION AND EFFECTS OF FLOWER, LEAVES, STEM AND ROOT EXTRACT OF AGERATUM CONYZOIDES L ON HEMATOLOGY AND SERUM ELECTROLYTES ON STREPTOZOTOCIN INDUCE DIABETIC RATS
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajbgmb.com/index.php/AJBGMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The standard of English needs to be improved and I have made supportive corrections which the authors should reflect upon and include if they are happy with the corrections. The authors should in addition to including the tables under the results section, they should provide a summary of the results in a summing text form before discussing them in the discussion section. The references must be fully and correctly written in one form and the references must be complete. The numbers assigned to the references must be in chronological origin, please check and reflect upon reference 31 and 32 with regard to correctness of their position	Noted Revision amended Done
Minor REVISION comments	See above	
Optional/General comments	Well done but improvement is required	OK

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u> No [not in my opinion] It is important if approval for the research was obtained from any group and this should be included
