EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>This manuscript need minor revision.</p> <p>Follow up data should be included in case report.</p> <p>Conclusion should be include the lessons learned from this case.</p>	<p>As per telephonic interview, patient is not having any complaints at the surgical site till date (10/3/22). But he is not coming to hospital for follow up due to some personal reasons. So, the latest x ray is not available. That's why I have included only 7 months follow up.</p> <p>Conclusion has been revised as per comments.</p>
