### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>There should be only one written form for the "Vitello-intestinal Duct". In the text you can find vitello-intestinal and also vitellointestinal.</p> <p>Also I found a mistake whe it comes to measurement units "was 9.5 gm %" "</p> <p>In the discussion the author could use a comparison between the evolution of the presented case and the evolution of other similar cases in recent literature.</p>	<p>Noted</p> <p>Comments revised</p> <p>OK</p>
<b>Minor</b> REVISION comments	<p>The author could write about possible postoperative complication in this kind of pathology</p> <p>Also the author could explain what would be the natural evolution in this case if left untreated.</p>	<p>Correction made</p> <p>Done</p>
<b>Optional/General</b> comments	<p>I suggest using pictures of the umbilical region before and after the surgery.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
