Type of the Article	Case report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrs.com/index.php/AJCRS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Typo and spelling errors are very frequent; thus, the manuscript needs extensive revision for such errors. 2. The histopathology images needs addition of some other low magnification images to demonstrate all layers of gallbladder wall. Also, the image quality needs to be improved as details are not seen. 3. The legend of the histopathology image is written in an inappropriate scientific description of the findings. Refer to a histopathologist for description. 4. The reference formatting is inconsistent through the references list. Review and unify formatting according to the journal style.	1. Typo and speeling errors have been corrected. 2. The histopathology issues have been readdressed but the low magnification image not available. 3. The histopathology issues have been readdressed. 4. The reference formatting is edited.
Minor REVISION comments		
Optional/General comments		

PART 2:
