EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>The figures need subtitles associated with arrows that indicate the structure described in the caption. The anatomus pathological examination needs to be described and the structures with arrows are indicated and indicated. Text in the figures becomes of a difficult reading.</p> <p>Your final manuscript is checked by Turnitin Software before publication. It is giving..%. text similarity index. <b>You are hereby kindly requested to reduce the text similarity index below 20% and send us the modified one.</b></p> <p>Final manuscript and Turnitin report are attached herewith for your kind perusal.</p>	<p><b>All the figures are illustrated with descriptions and arrows on the structure.</b></p> <p><b>About the plagiarism by Turnitin software, most of the similarities in medical terms such as CT abdomen, Meckel's diverticulum, stones, and gastrointestinal tract even the word abstract.</b></p> <p><b>Most of the papers were reviewed and changed as we can.</b></p> <p>Thank you</p>
