### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. It would be much clearer for the audience to state the <i>research question</i> in one sentence in the "Introduction" section.</li> <li>2. In the section 2.1, is there any literature to support that these 9 elements are main factors to affect the coal price? If there is any prior study to provide evidence, please take it as reference and mention it in the manuscript.</li> <li>3. In the section 2.2 and the section 3, the dependent variable is the coal price. However, the section 2.2 denotes "Y" as the coal price, and the section 3 defines "P" as the coal price. Please use the same symbol throughout the manuscript. It will help the audience to understand.</li> <li>4. Please check the format and spelling in the manuscript, because there are seriously skipping problems with words.</li> <li>5. In order to prevent from grammar error, it would be better to have the manuscript edited by a native-English speaker.</li> </ol>	I am very grateful for such detailed and precise advice., I have made corresponding revisions on the first draft. Wishing you and your family good health during this pandemic.
<b>Optional/General</b> comments	This manuscript has a good story, and it has made additional contribution to the research arena.	Thank you very much for your appreciation.

### PART 2:
