PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">I recommend removing figures 4.a, 4.b, 4.c, 5.a and 5.b for ethical reasons, I inform you that this change will not affect the quality of this article. Details are presented in PART 2 of this review, in the topic "Are there ethical issues in this manuscript?".	Done
Minor REVISION comments	<ul style="list-style-type: none">I suggest enlarging the 5.0 image graphics to facilitate the reader's view, the current size is very small.The topic IV Methodology is divided into 3 phases. I suggest that the author create a text explaining the third phase, as only one illustration in the manuscript defines this phase.	Done
Optional/General comments	<ul style="list-style-type: none">I congratulate the author for the nice work.I suggest that the author continue the development of the application and that it can be made available in the future to the international community.	Ok

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
