### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	1. The writing of the abstract is not typical for an academic paper, and it should also be revised to read more smoothly. 2. The international readers might not be familiar with the meaning of the abbreviation "LGU", so it would be better to present the full form before this abbreviation is used. 3. The structure of the paper is illogical in some parts. There are two different "2.1"s and "2.2"s, which are quite confusing. And what is more, in the first "2.2", the content "limitations of the study" is usually stated at the end of an academic paper.	1. I just followed what is appropriate arrangement of the abstract. 2. LGU means Local Government Unit 3. To be done
<b>Optional/General</b> comments	This paper has analyzed a case in a local Philippine government, which might be representative for underdeveloped Asian countries. However, the author(s) should have made clear the significance of the study for international readers.	

### PART 2:
