PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Method and Result Section ✚ Since Readers may not know standard Ghana's curriculum , so it require to state age , grade level , socio –economic status of students as biographic data. It is not also written in result section. ✚ Moreover, the author investigating determinants of female students low achievement. However, author uses only descriptive analysis. So how do we know the relationship exists between low achievement and the determinants (Psychological, Socio-economic status and Teacher related) unless performed multiple regression analysis. It will be weak output otherwise, ✚ Which factor more significantly contributing for female achievement in integrated science? Therefore, I think it has to be done!	<ol style="list-style-type: none">1. The average age level as well as the grade levels of the female students have been included.2. Multiple regression was not done as this could be an area of suggestion for further studies.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
