Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajess.com/index.php/AJESS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The study can be more relevant for review article. This manuscript cannot be considered as a research article. The author has reviewed only the previous articles but fails to mentions his contribution to the study. As suggested above, I think a more in-depth discussion would be helpful. I feel this is significant research, and therefore it merits more discussion.	The study is not empirical. Its main aim to discuss the merits of using games, types of games and how games can be implemented in classroom.
<b>Minor</b> REVISION comments	The author may wish to mention why his/her research is important in the present scenario in spite of mentioning previous articles.	Mentioned in the significance of the study Thanks for the reviewer for these precious comments
<b>Optional/General</b> comments	Overall, the information presented regarding English as a Foreign language and the Use of Educational Games is beneficial to some extent.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
