

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Fisheries and Aquatic Research</a>
Manuscript Number:	Ms_AJFAR_86171
Title of the Manuscript:	THE EFFECT OF ADDING TILAPIA PROTEIN CONCENTRATE (KPI) ON THE LEVEL OF PREFERENCE FOR BUBBLE PEARLS
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>General comments The manuscript idea is a good one. However, authors should improve on several parts of the paper.</p> <p>ABSTRACT 1) Add the justification of the manuscript. 2) Period and place do not need to add. 3) Add the performed analyses. 4) Why was the treatment with 5% protein concentrate preferred?</p> <p>Keywords: Fish protein concentrate (KPI)??? (FPC)???? Keywords: Use words that are not in the title.</p> <p>Introduction - boba drink – Add “boba” - “it is necessary to add protein sources in the formulation for making boba.” Is it really necessary to add protein to make the boba? But isn't it made of starch? I did not understand. - fish protein concentrate (KPI)???? (FPC) Time and Place of Research - Is it necessary? Tilapia Protein Concentrate Manufacture - Please, include a flowchart. Research Methods Please, add more details on sensory analysis and chemical composition.</p> <p>Results and discussion Organoleptic Characteristics of Bubble Pearls The parameters that will be observed in this research are hedonic tests on organoleptic characteristics which include the appearance, color, aroma, texture and taste of bubble pearls obtained from each treatment. obtained from the most preferred treatment by the panelists (the best) and without the addition of tilapia protein concentrate (control). - unnecessary sentence. Figure 1 – x and y-axis are not written in English, please correct them. Table 1 is the same comment. - And the chemical composition? You must discuss this.</p>	<p>Corrected</p> <p>Corrected</p> <p>Done</p> <p>Done</p> <p>Done</p>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
