General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Entire MS should be rewritten with good English. Many sentences are not conveying any meaning. It is better to correct the English then send to the reviewer since reviewer cannot rewrite the article for the author. Some part of text given in results are to be shifted to materials and methods No encouraging output was found in results	I agree and I have revised the Journal in correct English. The section between results and methods has been changed and I have added conclusions in the journal so that the information can be understood well. In addition, I also added some references that support the journal I created. hopefully the results satisfy the reviewer. thank you very much
Minor REVISION comments		
Optional/General comments	No significant findings in the research work.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
