

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Fisheries and Aquatic Research</a>
Manuscript Number:	Ms_AJFAR_88386
Title of the Manuscript:	Increasing Growth, EPA, and HSI in Biofloc Catfish with the Addition of Soybean Oil
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<ol style="list-style-type: none"><li>1. The research conclusions in the abstract have not been written yet</li><li>2. Write down the complete nutritional content of soybeans along with the percentage value</li><li>3. Write down the protein content in soybean oil and other content levels along with the percentage value.</li><li>4. Add references to research results on biofloc systems, increasing Growth, EPA, and HSI in Biofloc</li><li>5. The artificial feed has not been written clearly, what artificial feed consists of ingredients</li><li>6. Reference not written yet</li><li>7. Why is the treatment added 4% soybean oil? in the method using 2% soybean oil [B], 4% soybean oil [C], and 6% soybean oil [D], all treatments were 4</li><li>8. Too little discussion, add more recent references for discussion.</li><li>9. Check writing references</li></ol>	Thankyou, will be corrected.  4% is the best result of HSI, ADG, and SGR. So, it is suspected that the level has a higher chance of the presence of omega-3 fatty acids in the catfish body
<b><u>Optional/General</u></b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
