PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The period of study was not mentioned in the summary. The authors should be precise in their writing as the first three of the first paragraph of Analysis of Variance on page 6. In part a) Model Summary of point 6, the authors have only defined the R-squares and the R-adjusted without giving their econometric and statistical interpretation. It is important that the authors give the econometric interpretation of Durbin-Watson.	All comments have been revised and included in the document named
Minor REVISION comments	The sub-titles of (c) Coefficients of regression equation) are not necessary Section 6. regression analysis should be focused on interpretation and discussion of the results.	The has been considered
Optional/General comments	The paragraphs should contain a maximum of 8 lines.	Noted and corrected

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
